ADITHYA NARAYAN M S

Let's Create  
Something

# Who

# Am I?

**I'm Adithya Narayan M S, a fashion model based in Bangalore. I have engaged with multiple fields of work for various shoots so far, and would like to continue to work as a freelancing model.**

**Personally fashion is that element that starkingly helps gain my confidence. It helps me view everyday circumstances through a different lens that inturn constantly keeps me engaged and inspired. My motto would be, "Overdressing" is just an illusion, while 'Style' is personal and subjective. I constantly aspire to learn from the experiences of being a model and nothing inspires me more than being infront of the lens.**

# Bengaluru's design school students showcase a blend of tech & creativity

Maurizio Grioli, dean of fashion, business and interiors; Shashidhar M R, digital creator and gamer; Shalini Chopra, digital creator and fashion influencer; Dr Sanyogita Chadha, regional president; (right) students showcase their take on 'Tech Nomads', blending innovation with creativity

Pearl Academy recently hosted its annual marquee event 'Portfolio 2024' at its Bengaluru campus. The event was based on the theme 'Tech Nomads', and it was inspired by the idea that digital natives are like wanderers in a virtual world, seamlessly transitioning from one online space to another. The displays were an interesting blend of technology and creativity," shares the management.

"We recently strengthened our long-standing partnership with FDCI, offering co-certification for short-term courses, and masterclasses by top Indian fashion designers, providing students with invaluable learning experiences and firsthand exposure to the industry. The FDCI collaboration also allows students to showcase their work at Lakme Fashion Week and India Couture Week," they add.

"In addition to the captivating displays, Portfolio 2024 witnessed curated workshops, a fashion show, and thought-provoking deliberations, fostering dialogue and exchange among creative aspirants," the team signs off.
